

Degree **Human and social sciences**
Specialisation **Sciences of education**
Course **Education, teaching**

Aims

The Sciences of education degree aims to be both general and oriented towards employment:

- § It is general, with a study of educative phenomena providing an introduction to the disciplines of the human and social sciences.
- § It is a preparation for work, offering theoretical and practical (internship) introduction to the main employment sectors in the education field. This introduction is organised into three courses mentioned above.

A shared portal course for the degree specialisations at the Faculty of Human and Social Sciences has been set up in term 1: it includes a general introduction to human and social sciences, an overview of the different constitutive disciplines, providing a choice of orientation from term 2, a series of interdisciplinary courses and methodological tools.

Admission

General baccalaureate.

Skills

The aim is to help students:

- § acquire the theoretical foundations in SHS
- § apply multidisciplinary approaches in the sciences of education
- § acquire the capacity to mobilise research tools
- § gain knowledge of the main sectors of education and the relations between them
- § understand and analyse educational situations
- § have an introduction to professional cultures
- § acquire the capacity to grasp the issues in local education policy
- § understand the issues of institutional assessments
- § see the relations between knowledge and skills

After the course

Continuing studies

Each core course can be a prelude to a sciences of education master's degree on offer at the COMUE Lyon-St Etienne.

Job openings

- § School teacher
- § Chief education adviser
- § Project manager working with local authorities
- § Coordinator of local educational project
- § Social work and outreach professions
- § Manager of educational and social institutions
