

Master of Art Art Science Studies

Master of Arts, Literature, Languages
Arts Honours
Art Science Studies

Objectives

Art Science Studies intend to broaden research skills in different areas:

- > production of a piece with the ability to apply perspective and critical thought to it.
- > development of theoretical consideration based on aesthetics and art sciences regarding a piece, artist, period or an issue related to graphic arts in their many forms and manifestations.

This Master course provides reflexive and critical training with a graphic art creation.
