NOTES ABOUT THE COURSE

Certain modules are taught with the Business Master 2, "law and business" speciality. Some sectors are shared with the "Health Engineering" Master in medicine and included in medicine brochures. Medicine students on the course are enrolled in medicine.

Coaching lessons are partly provided by the university's module for 8 hrs.

Digital lessons intend to provide user techniques that are essential to vital new business technologies.

Teaching staff

■■■■

Each area is overseen by a university professor. Figures in each sector either work at the university or are professionals.
