

# Master of Economics and Finance

Master of Law, Business, Management  
Currency, Banking, Finance, Insurance Honours  
Economics and Finance Studies

*In partnership with Lyon 2 University, ENS de Lyon and EMLYON Business school*

*The Economics and Finance Master 2 Finance Studies are the IAE Finance research studies. It provides training in and through research into microeconomics, macroeconomics, corporate finance and financial markets. The focus is on understanding the most advanced tools and methods in the aforementioned areas of analysis. It works with the GATE Lyon Saint-Etienne, COACTIS and CEFRA (EMLYON) research laboratories.*

## Objectives

The aim is to be able to **understand and monitor recent developments in research** from both a theoretical and empirical point of view and be able to contribute to them.

At the end of the Master 2, students have the option of **pursuing further education or research** either in financial or non-financial business research departments, as consultants (restructuring companies, mergers & acquisitions etc.) or as senior executives in financial bodies and financial departments in large companies.

## PARTNERSHIP and SUPPORT

- > Research management. Students have access to support from the research professors in their research projects, drafting their dissertation and sourcing potential funds to pursue research. They also have access to facilities at partner establishments (databases, IT tools, research seminars).
- > The participation of 4 higher education and research bodies. Course participants are research professors from the Jean Monnet University in Saint-Etienne, Lumière Lyon 2 University, Ecole de Management de Lyon and ENS de Lyon. These bodies have decided to pool their research assets in the areas of economics and finance to provide a quality programme.

## SPECIAL FEATURES

1. The acquisition of technical skills advanced by research
2. Personalised support
3. Myriad prospects
4. All teaching is provided in English
5. Active involvement of research laboratories

## Who's it for?

### Target audience

- > Students with an Economics Master 1 in Finance studies (Currency banking finance insurance) from IAE
- > or equivalent diploma in the finance sector

# What's next?

## Prospects

The most obvious prospect of the Master course is further education and research with the completion of a PhD thesis. The focus on the link between theory and the ability to analyse concrete economic situations - a key feature of the course - enables graduates who don't intend to continue in research or further education to work in research departments, research bodies, banks, local communities or international organisations.

## Course

<b>Fundamentals (10 ECTS)</b>  <b>4 choice of course from</b>	<b>Expertise (15 ECTS)</b>  <b>3 choice of module from</b>	<b>Tools and methods (5 ECTS)</b>
