COVID-19 - Information point - April 9, 2020

INFORMATION TOWARDS STAFF AND STUDENTS

NATIONAL STRATEGY: THE EVOLUTION OF REGULATORY TEXTS

- **Order No. 2020-387 of April 1, 2020 on emergency measures in the area of vocational training (OJ of April 2, 2020).** The order notably facilitates access to the validation of acquired experience during the state of emergency and authorizes the extension of apprenticeship and professionalisation contracts, to take into account the suspension of hosting apprentices and trainees by apprenticeship training centres and training organisations since March 12, 2020.

- **Order No. 2020-328 of March 25, 2020 extending the period of validity of residence documents (OJ of March 26, 2020).** This order will allow, in particular foreign students, to see the period of validity of their residence permit, extended by 90 days when it expires between March 16 and May 15, 2020. The same applies to long-stay visas, temporary residence permits, receipts for applications for residence permits and certificates of asylum application which expire between March 16, 2020 and May 15, 2020.

UJM CONTRIBUTES TO THE MOMENTUM OF SOLIDARITY AND SUPPORTS RESEARCH TO FIGHT COVID-19

- **GIMAP laboratory on the front line to evaluate a fast serological test**
  To respond to the current health crisis, the entire international scientific community is mobilising to develop and produce fast screening tests in very large quantities. It is a real "race against the clock" with a major stake. The UJM GIMAP laboratory worked closely with a spin-off from the Pasteur Institute to evaluate a fast test. The results are promising. [Read the article.](#)

- **Medical reserve: UJM health students volunteer**
  To date, 687 university students have mobilised to join the medical reserve. Some are already reinforcing teams of caregivers in hospitals, clinics and medical centres. The medical reserve, (material and human resources of the Ministry of Health), is mobilised in emergency when an exceptional health situation requires the dispatch of reinforcements to health personnel on the ground.

- **Franck Chauvin appointed member of the COVID-19 scientists committee**
  Franck Chauvin, Professor of Public Health at UJM, Head of the Institute for Prevention and Global Health (PRESAGE), and President of the High Council for Public Health, was appointed on April 3, 2020, member of the scientists committee constituted under the declared state of health emergency to deal with the COVID-19 epidemic. [Access the decree.](#)

CANCELLATION OF THE 2020 UNIVERSITY FESTIVAL EDITION (FEST’U)

Due to the current health situation, all public events are canceled. The Fest’U, scheduled on June 4, 5 and 6, 2020 on the Tréfilerie campus cannot take place. The University would like to thank all of the artists, teams and partners who worked towards the preparation of this major cultural event. Depending on the evolution of the situation, the University will offer other moments of cultural experience.

PHYSICAL AND SPORTING ACTIVITY FOR ALL

Discover the new videos offered by SUAPS to help you stay in good shape, as well as the report produced by TL7 available on the SUAPS Facebook page (publication of April 5). [Consult the information.](#)

CULTURE AND SUSTAINABLE DEVELOPMENT FROM HOME

During this confinement period, the Staff and Student Life Service (SVPE) team offers you a set of completely free digital resources to escape and develop your knowledge, from home: [cultural resources](#) and [resources on sustainable development](#).
STUDENTS : NEW ORGANISATIONS, NEW CALENDARS

UPDATE OF THE “INTERNATIONAL” SECTION FAQ

This update concerns outgoing mobility. A question relating to the situation of foreign students registered at UJM who are on mobility abroad has been added. Not being French nationals, they are advised to contact their own diplomatic authorities and not French embassies or consulates which will not be able to process their request. More information.

COMPUTER EQUIPMENT LOANS

Following the survey launched on March 27, 2020 to evaluate students’ means of access to both digital resources and communication with their faculty, school or institute, the Digital direction of UJM loaned the first laptops to students without a computer. Thirty students in Saint-Etienne and Roanne already benefited from those loans. This operation may have to be repeated in the coming weeks.

YOUR REMOTE LIBRARY (BU)

The UJM libraries are active remotely to help students work: remote information and orientation, access to digital documentation, documentary support are offered. Access resources.

STAFF : NEW PROCEDURES, NEW RESOURCES

NEW ORGANISATION AND OPERATING PROCEDURES FOR REPRESENTATIVE BODIES

The University’s board of administrators will deliberate shortly to allow all UJM representative bodies to operate in remote mode. The calendar of those instances is adapted to ensure the continuity of the university’s missions of this end of academic year 2019-2020. Find the calendar for April.

UPDATE ON THE HUMAN RESOURCES FACTSHEET ON LEAVE/HOLIDAY MANAGEMENT FACT

For this period of remote activity continuity, the human resources factsheet on leave/holiday management, has been updated to answer your main questions. Consult the sheet.

HOW TO BEST TELEWORK ?

Join a free training called “Telework: Organise remotely” (in French). In 4 hours, you will familiarise yourself with the best practice to follow and improve your French! Access this training.
