NATIONAL STRATEGY: THE EVOLUTION OF REGULATORY TEXTS

- Decree No. 2020-548 of 11 May 2020 prescribing the general measures necessary to deal with the covid-19 epidemic in the context of a state of health emergency (OJ of 12 May 2020). The text contains general provisions on hygiene and social distancing measures. It also contains provisions on the reception of users in higher education institutions and on the possibility for educational institutions to receive the public for the organisation of entrance examinations or tests.

- Decree No. 2020-549 of 11 May 2020 setting the temporary conditions for the prescription and renewal of work sick leave by the occupational doctor (OJ of 12 May 2020).

- Decree No. 2020-520 of 5 May 2020 amending Decree No. 2020-73 of 31 January 2020 adopting adapted conditions for the receipt of benefits for persons exposed to coronavirus (OJ of 6 May 2020). The decree provides, in particular, for the issuing of derogatory work leaves accessible to parents of disabled children who are unable to telework in the context of confinement measures and modifies the procedure for issuing them as well as their maximum period of validity.

- Order of 21 April 2020 relating to the doctorate and the procedures for the presentation of work by a candidate in the context of an “HDR” accreditation to direct research (OJ of 30 April 2020). The present decree provides for the possibility of extending the duration of the doctorate and the thesis defence by any means of telecommunication allowing the identification of the members of the jury and the doctoral student and their effective participation. Due to the same circumstances, the same technical possibility is given to the application for the habilitation to direct research. These provisions are applicable to doctorates whose deadline or authorised extension is between 1 March 2020 and 1 March 2021, as well as to defences and presentations of work that take place between 13 March 2020 and 1 October 2020.
