COVID-19 - Information point – May 29, 2020

SHARED PERSONAL AND STUDENT INFORMATION

NATIONAL STRATEGY: THE EVOLUTION OF REGULATORY TEXTS

- **Decree No. 2020-604 of 20th of May 2020** supplementing Decree No. 2020-548 of 11th of May 2020 prescribing the general measures necessary to deal with the covid-19 epidemic within the framework of the state of health emergency (OJ of 21st May 2020). Decree No. 2020-548 of 11th of May 2020 is amended to allow, in particular, the reception of users in higher education institutions for access to continuing education or alternating training, laboratories and research units, the lending services of libraries and documentation centres (only for the withdrawal and deposit of materials) to administrative services by appointment or by convocation. Access for users of higher education institutions to preventive medicine and health promotion services, already made possible by decree d° 2020-548 of 11th of May 2020, is also maintained.

- **Order of 11th of May 2020** relating to the implementation of temporary provisions for time savings accounts in the State civil service and the judiciary in order to deal with the consequences of the covid-19 epidemic (OJ of 13th of May 2020).

- **Circular of 11th of May 2020** relating to the modalities of granting specific emergency aid to students in precarious situations following the Covid-19 epidemic (Special Official Bulletin No. 4 of 12th of May 2020). In order to respond to the increasing material difficulties of a significant part of the student population due to the Covid-19 epidemic, a specific emergency aid is created for students in precarious situations due to the health crisis. This aid is intended for students who have lost their jobs or have been unable to carry out all or part of a free internship because the institution where they were working or were due to work has been closed to the public or its activity has been reduced following the implementation of measures to combat the spread of the virus, and for overseas students who were on the move in metropolitan France at the time of the implementation of measures to ban certain movements taken in response to the Covid-19 epidemic. This aid is part of the scheme of specific emergency aid granted by the CROUS, in accordance with article D. 821-4 of the Education Code.

- **Order of 22nd of May 2020** amending the conditions for organising the entrance examinations opened by the Order of 9th of July 2019 authorising the opening of examinations for the year 2020 for the recruitment of specialised assistant librarians of higher grade (OJ 26th of May 2020). The conditions for organising external and internal competitions for the recruitment of specialised assistant librarians at a higher grade are amended. The deadline for uploading the individual information sheet and the dossier for recognition of professional experience is extended to 8th of June 2020.

UNIVERSITY PREPARATION FOR THE START OF THE NEW ACADEMIC YEAR: AN ORGANISATION UNDER SPECIAL CONDITIONS

At this stage, and even if there is a lot of uncertainty about the conditions of hosting students in higher education institutions as of September 2020, one thing seems to be emerging: the health situation could make it difficult to start the year under the usual conditions. The health protocol will thus bring with it a “different and new mode” of activity that will obviously not become the norm in the years to come.

Whether it is a question of the limited number of students likely to be admitted to an amphitheatre or teaching room (due to social distancing) or the constraints on the modes of circulation that will have to be secured, teaching methods will necessarily have to adapt and make use, to an extent that depends on each teaching team, of digital tools. These are obviously not intended to become the norm and eventually replace all face-to-face activities.

This is why the university will launch preparations for the new academic year. This project has several components, on the one hand a reflection on the balance to be found between face-to-face and distance learning. On this last point, it will be necessary to better dimension our needs for pedagogical and technical support and to adapt the deployment of new equipment.
This project will be co-constructed with our faculties, institutes, school and department. It will require the implementation of adapted timetables and will mobilize all our services. It will be complex to implement but it seems to us to be the only solution to be able to offer a training offer accessible to all our students and teachers.

**ON-SITE RETURN**

More than fifty on-site return protocols have been validated, enabling certain laboratory, technical and administrative staff to resume an activity on site under adequate sanitary conditions. The sites remain closed to the public and teleworking is nevertheless favoured for certain activities that are essential for managing the end of the academic year and preparing for the start of the new academic year, which are gradually being resumed on site. The switchboards will gradually be reopened.

The documentation service is not open to the public, but will soon offer a remote lending service through a drive system (see below).

This year, the enrolment process will be organised in a totally dematerialised mode from 02/07/2020 to 26/07/2020 and from 25/08/2020 to 30/09/2020 (until the end of November 2020 for doctoral students), a hotline will be set up to provide quick answers to questions asked by new students who obtained their baccalaureate, in particular.

**CULTURE**

Every week, from your home, the Staff and Student Service offers the opportunity to follow a show at distance. This week, discover the play "Le Misanthrope".

**SUAPS : DIETARY ADVICE**

Good health also requires a balanced diet. In this period of COVID-19's health crisis, a dietician gives tips every day on diet and dietetics. Find all the dietary advice as well as videos made by SUAPS to help you stay in shape.

**STUDENTS: NEW ORGANISATIONS, NEW CALENDARS**

**UNIVERSITY LIBRARIES: FIRST STAGE OF A GRADUAL DECONFINEMENT**

On Tuesday 2nd of June, the university libraries will open their counters or return boxes to collect the documents you have borrowed. Before you go, please check the website for schedules and safety instructions.
STAFF: NEW PROCEDURES, NEW RESOURCES

HR: ADVANCEMENT CAMPAIGN FOR ACADEMIC STAFF

In view of the exceptional context, the Ministry adapted the timetable for the promotion campaign for academic staff. [More information.]

HR: ENTRANCE EXAMINATIONS

Registration for the ITRF examinations opens on 19th of May and closes on 18th of June. In the context of the health crisis, the Ministry reviewed the conditions of the examinations for the year 2020. [More information.]

HR: REMUNERATIONS

The [remuneration information sheet](#) has been updated.
